

COVID 19 and Pursuit Health Management

In an effort to protect patients, employees, their families, and our communities, Pursuit Health Management has taken specific operational steps to reduce the spread of the COVID 19 virus.

These changes are in effect until further notice.

- **We have closed our London multi-disciplinary clinic aside from part time administrative staff. All patients requiring support can contact the clinic between 10:00 – 3:00 pm and receive telephone or virtual online assistance from their therapist. Call 519-672-1048 ext 0 or 1-877-488-3771, ext. 0 and you will be directed to your therapist.**
- **All community based staff throughout Southwestern Ontario (Occupational Therapists, Social Workers, Nurses, Vocational staff) are working from home offices. They are available for telephone and virtual online support for both new and existing patients.**
- **In the event of a safety issue or potential risk of harm with new or existing patients, staff members will visit them in their home in exceptional situations, recognizing social distancing as well as utilizing appropriate Personal Protective Equipment. Patients and family members will be pre-screened for COVID 19 risk factors.**
- **Our mission is to offer support, when and where needed, to our patients, in transformative ways which mitigates the risks associated with COVID 19.**
- **We are working smarter (and harder) to address our patients and customer needs. Any questions or concerns can be sent to: info@pursuithealth.ca**

We appreciate your patience and understanding.
